IDVA 2025/2026 Enrollment Cap

Idaho code 33-5207(2) caps the maximum growth for charter schools at 40 support units over the previous year's support units. Idaho Virtual Academy will closely monitor support unit estimates based on enrollment distribution until the statutory cap is met each school year. In this case, when the statutory cap is met, enrollment will be closed, and the school will follow IDVA Board Policy 902.5. Enrollment will be reopened during the same school year if the backfill to the cap is warranted.
